

FlexLite 2i LED

2.8mm pitch lightweight curvable & creative LED panels

YSLV

AV · LED · EVENTS

KEY FEATURES

FLEXIBLE PANEL FOR CREATIVE LED

Our FlexLite range has the ability to curve up to a maximum of 14 degrees concave and a maximum of 90 degrees convex. Creative shapes achievable include full circular screens, tunnels, cubes and more.

BLACK FACED LEDS FOR THE SUPERIOR IMAGE QUALITY

The black faced SMD LEDs and black surface mask of the FlexLite 2i mean it has superior contrast vs many other screen options - providing clearer and more colourful images.

LIGHTWEIGHT DESIGN

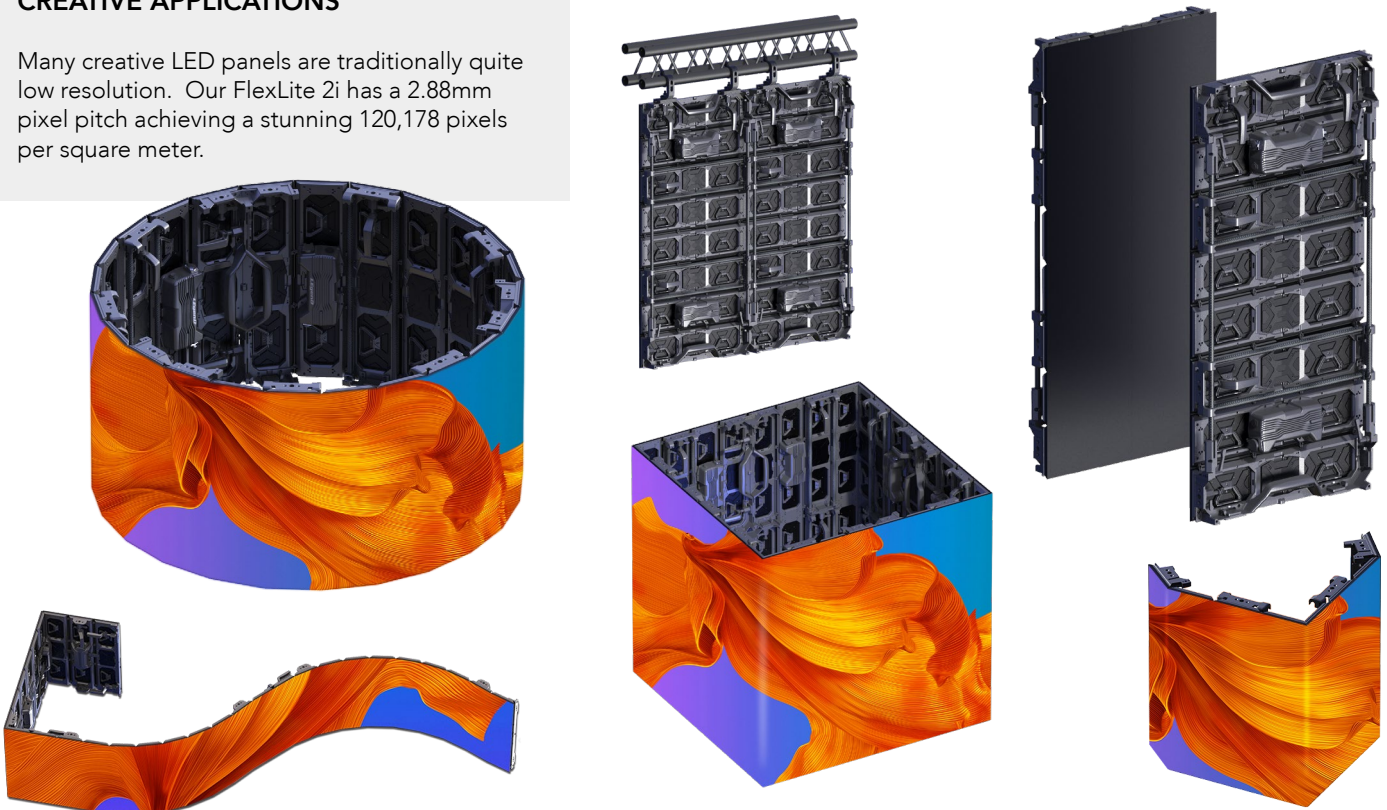

Designed with advanced materials including carbon fiber and magnesium alloys the FlexLite 2i is ideal for being flown by keeping overall weight to a minimum.

SUPER HIGH PIXEL PITCH FOR CREATIVE APPLICATIONS

Many creative LED panels are traditionally quite low resolution. Our FlexLite 2i has a 2.88mm pixel pitch achieving a stunning 120,178 pixels per square meter.

SPECIFICATIONS

Pixel Pitch	2.88 mm
Screen Type	Indoor
Brightness	1000 NITS (cd/m ²)
Viewing Angle	H 140° V 140°
Pixel Density	120,178 LEDs/m ²
Pixels/Panel	208 x 416 pixels
Pixel Configuration	1R1G1B Black SMD
Colour Processing	16 bit colour
Refresh Rate	> 3000 Hz
Panel Size	W 600 mm x H 1200 mm x D 80 mm
Panel Weight	17 kg
Maintenance Options	Rear
Input Voltage	110~240V AC 50-60Hz
Power Consumption	151W / panel
